WORK EXPERIENCE

Thumsters, Gold Coast — Lead Software Engineer

JUNE 2025 - DECEMBER 2025

- Served as Lead Software Engineer for a cross-platform parenting app, driving development and ongoing maintenance of the mobile application.
- Managed feature implementation, bug resolution, and the translation of designs and requirements into production-ready code.
- Built and helped design core functionality for a dashboard platform used by healthcare professionals, with a focus on usability and compliance with data handling requirements.

Koben Digital, Gold Coast — Web Developer (*Senior Frontend Developer*)

MARCH 2021 - JUNE 2025

- Led frontend and mobile development, collaborating with backend engineers, designers, and clients across diverse industries.
- Developed cross-platform mobile apps (iOS/Android/WatchOS) using React Native, Swift, Capacitor, and serverless APIs.
- Designed and deployed high-traffic Next.js applications, integrating CMS JSON feeds with cost-efficient ISR strategies for scalability and performance.
- Drove site speed and performance optimization, consistently achieving strong Lighthouse scores through Chrome DevTools profiling and modern best practices.

Pixelize Web Design, Gold Coast — Co-Founder, Web Developer

2020 - 2021

Built and maintained websites for a diverse range of clients using WordPress, React, Gatsby, and Shopify. Optimised pages for SEO.
